

## **Coastal Resilience and Adaptation Economy**

### **Consortium Resources and Capabilities Working Group:**

**Scope of Working Group:** Assess resources and capabilities within Regions 5 and 6 building upon existing work completed by Go Virginia project partners and consortium members. This group will:

- Review and build upon work of the VASG Go Virginia Planning grant and the work of Virginia's universities, and consortium members to:
  - Define the problem – Scale and impact (as relevant to the CRAE)
  - Describe the Water Technology sector and pathways for entrance;
  - Highlights innovative solutions and success stories in the two regions;
  - Showcase local business development opportunities;
  - Promotes local expertise and opportunities to export regional expertise;
  - Provide web portal access to education activities;
  - Provide outreach and engagement for working group outcomes to highlight regional expertise
- Incorporate the work of the Business Plan Competition and other Consortium Working Groups into the Resources and Capabilities communications
- Inform the Year 2 Talent Gap working group

### **Outcomes of Working Group:**

- Documentation of above resources and capabilities to consortium members, in a web portal and in other written/visual materials
- Documentation of examples showcasing success stories and pathways to entering the resilience ecosystem.
